## *For Immediate Release*

### Team Worldwide Announces New Branch Office Opening in Southern Arizona

<Dallas, Texas> March 1, 2021

Team Worldwide, a global 3PL company, is adding to its North American network with the opening of its latest Branch office in Nogales, AZ serving Tucson, AZ clients and surrounding areas. Scheduled to open on Monday, March 1, 2021, the Tucson Branch will provide easy access to expand cross-border transportation capabilities and further connect Team's extensive network of over 45 North American Branches to Mexico.

General Manager, Eleazar Romero, brings decades of experience in supply chain management to the table. The Branch's foremost focus will be to integrate international business from Mexico working closely with Team partners, as well as grow domestic business focusing on the Tucson market and surrounding areas. Much like Team's coast-to-coast Branch offices, the new location will provide streamlined logistics services as the single point of contact. Across industry verticals, clients can expect a hassle-free experience with solutions tailored to their unique shipping needs.

"We're excited to be part of the Team network and serve as a one-stop shop, offering integrated shipping solutions to clients," said Eleazar, General Manager. "In over 30 years of doing business on the border, we understand the complex process of Mexican and U.S. customs, collaborating with our key partnerships with Mexican carriers that help us to provide excellent service to our clients."

Randy Sinker, President of Team Worldwide, is thrilled to welcome the newest Branch office to the Team. "The strength of our unique business model lies in our network of locally-owned and operated Branch offices. By adding Tucson to our expansive network and leveraging the local team's existing connections, we look forward to providing additional cross-vertical solutions to clients."

An active member of the community, Eleazar volunteers regularly for his local church to support several charities in Sonora, Mexico, and is also a 20-year committee member for the Maquiladora Association. Each year, this organization raises over \$50,000 for education scholarships for local children. Eleazar and other members of the office including Mauricio, Estela, Leo, and Esperanza, are looking forward to continuing to give back to their community, and bring the Team culture and level of service to the area.

About Team Worldwide: Team Worldwide, a global yet locally-minded freight forwarder and 3PL company, provides customized logistics solutions to customers via the operating divisions of Team Air Express, Team Transportation, Team Logistics, Team Ocean Services, Team Customs Brokerage, Team International Trade Services, and Team Worldwide, LTD.
